“ You’ll always be KayKay to me. Although so grown up and caring, how do I know you but as KayKay.

“ I met Kay when my son Leroy and Brittany were in the same class in middle school. Kay has always been an array of sunshine and full of joyful hilarious laughter.

Later during the years she shared with me that there was a position open at Families Helping Families of GBR. I was hired and worked with Kay for many years. Her knowledge and expertise of waiver support services and IEP support blessed so many families.

I will miss you Kay

“ I've only known you for 10 years, but what a great sister in law you were. I'm gonna miss our laughs and sister talks and I am so honored to have been there through some of your toughest times in life. I'd gladly hold your hand and be there for you again. You will always be in my heart and when I look up and see those crazy shapes in the clouds... I'll be smiling thinking, What would Kay see in those?

Rest Easy Sweetie, We Love You!

“ I don't know where to begin back in third grade. In 6 the grade we got busted by Mr. Harden for passing notes he pulled me from class to read it aloud made us stand up together. Our life's our memories our years. I thank you for always being a shoulder and level headed for us both. May you rest easy ride for me into the water I love you ,if not for you I'd never know true kindness and loyalty and the meaning of friendship. As we always say until next time Peace 🕊
