“ Keith was my best friend for many years, I couldn't have imagined life without him. He made me laugh and as a single mom gave me the mental reinforcement that I needed everyday because my daughter needed me. I am also disabled and and many times he gave me physical strength. One year stands out the most when I had to go out out town and the day I came back had to get my home and yard ready for a huge outdoor and then slumber birthday party for my daughter. If it had not been for Keith it would have never happened. That is only one of the many many times he saved the day. My daughter adored Mr. Keith and my boyfriend depended on him when he had to fly out of State for weeks at a time. He would tell Keith to take care of his girls. Life went on and we went out separate ways, however. They became best friends. There is not a day it that goes by that I don't think about him or miss him. He is everywhere I look in my home. Things he gave me, clothes he left, or just thoughts that pop in my head. Fly high keefy I love you and will forever think about you and miss you with all my heart. I will keep Keith's family in my prayers, peace be with you
